Making Communication Easier

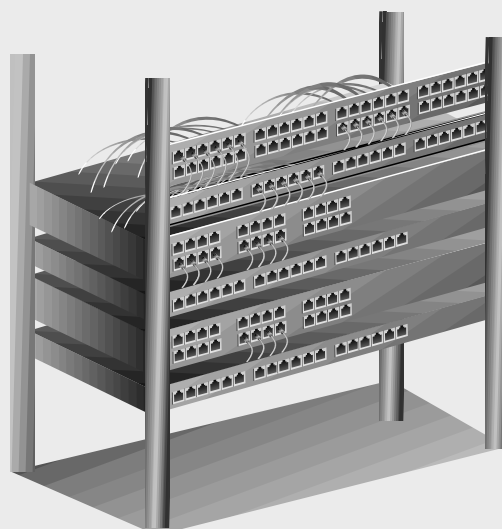

Micronet SP1161 Series

# Patch Panel

Micronet SP1161 Series Patch Panel provides network architects an exceptionally easy way for wiring configuration. It is a place where network connections are made and often rearranged, guiding the information to the correct destination. To reassign a network client to a new port on the switch, all you have to do is move a patch cable. SP1161 Series Patch Panel can make your wiring closet look great !!

## Key Features

- 24-port Patch Panel for more flexibility on wiring configuration
- Enhanced Category 5 and Category 6 standard compliant
- Accepts either 110 or Krone punch down tools
- 45-degree jacks for putting less strain on patch cable
- Error free performance

SP1161 Series
